

PDBP Publications Policy

Publications Utilizing NINDS Parkinson's Disease Biomarkers Program Data and Specimens

The following dictates the Publication Policy by which appropriate acknowledgement is given to the Investigators of the Parkinson's Disease Biomarkers Program (PDBP) when PDBP data is used in a publication. Individuals requesting and receiving clinical, biological samples, imaging, and other demographic data from the NIH PDBP Consortium must submit their manuscript prior to Journal publication to the PDBP Steering Committee. The Steering Committee representative will not review the manuscript for content, but will only approve that the Publication Policy for acknowledging the PDBP Investigators is met. The Steering Committee Representative can include NIH Staff or PDBP Investigator. The Steering Committee Representative will respond and approve the paper for journal submission within 5 business days. If this time elapses without notice from the PDBP Steering Committee Representatives, the Author may proceed with the paper. All manuscripts and inquiries should be directed to the following email address: PD-Pubs@ninds.nih.gov

The following statement should be included in the Acknowledgements section of your manuscript:

Data and biospecimens used in preparation of this manuscript were obtained from the Parkinson's Disease Biomarkers Program (PDBP) Consortium, part of the National Institute of Neurological Disorders and Stroke at the National Institutes of Health. Investigators include: Roger Albin, Roy Alcalay, Alberto Ascherio, DuBois Bowman, Alice Chen-Plotkin, Ted Dawson, Richard Dewey, Dwight German, Xuemei Huang, Rachel Saunders-Pullman, Liana Rosenthal, Clemens Scherzer, David Vaillancourt, Vladislav Petyuk, Andy West and Jing Zhang. The PDBP Investigators have not participated in reviewing the data analysis or content of the manuscript.

By signing this form and receiving samples, you agree to the Publication Policy.
